

## AI Engineer

[Apply Now](#)

Company: Prokoders

Location: united arab emirates

Category: other-general

Are you passionate about artificial intelligence and machine learning? Do you thrive on developing innovative solutions that leverage cutting-edge technology? We are seeking a talented AI Engineer to join our team and help drive our organization to new heights. As an AI Engineer, you will play a key role in designing, developing, and implementing AI solutions that enhance our products and services.

**Duties** Develop and implement AI algorithms and models to solve complex business problems Collaborate with cross-functional teams to integrate AI solutions into existing systems and processes Conduct research to stay current on the latest advancements in AI and machine learning technologies Analyze and interpret data to identify patterns, trends, and insights that can be used to improve decision-making Optimize AI models for performance, scalability, and efficiency

**Requirements** Bachelor's degree in Computer Science, Engineering, Mathematics, or a related field Proven experience in AI development, machine learning, or data science Strong programming skills in languages such as Python, R, or Java Experience with machine learning frameworks such as TensorFlow, PyTorch, or scikit-learn Knowledge of data visualization tools and techniques Excellent problem-solving skills and the ability to work in a fast-paced environment

**Additional Skills:** Familiarity with cloud computing platforms such as AWS, Azure, or Google Cloud Experience with natural language processing (NLP) or computer vision applications Knowledge of deep learning techniques such as neural networks and convolutional neural networks

We'd Love to Hear from You! Let's Chat About Your Business Needs and How We Can Help.
