

Aluminium Fabricator

[Apply Now](#)

Company: Ateca Consulting

Location: Al Ain

Category: healthcare-practitioners-and-technical

Job Opportunity: Aluminium Fabricator

Location: United Kingdom

Are you a skilled Aluminium Plater/Fabricator looking to make waves in the maritime industry We are seeking a dedicated professional to join our team in the United Kingdom.

Key Responsibilities:

- Blueprint Interpretation:** Read and interpret ship design plans, blueprints, and technical drawings to understand the specifications for the construction of aluminium vessels.
- Fabrication and Assembly:** Cut, shape, and assemble aluminium components and structures according to design requirements using specialized tools and equipment.
- Welding Expertise:** Fabricate, weld, and fit aluminium panels, bulkheads, frames, and other structural elements to construct the hull and superstructure of the ship.
- System Installation:** Install and fit out various systems and components to ensure the functionality of the vessel.
- Quality Assurance:** Conduct inspections and quality checks to ensure the construction process meets industry standards, safety regulations, and project specifications.
- Collaboration:** Work closely with naval architects, engineers, welders, and other tradespeople to coordinate the construction process and address technical challenges.
- Safety Compliance:** Adhere to safety protocols and procedures to maintain a secure working environment during the shipbuilding process.

Qualifications:

- Proven experience as an Aluminium Plater/Fabricator in shipbuilding.
- Proficient in reading and interpreting ship design plans and technical drawings.
- Expertise in cutting, shaping, and assembling aluminium components.
- Strong welding skills for fabricating structural elements.
- Knowledge of marine construction practices, regulations, and standards.
- Ability to collaborate effectively with a multidisciplinary team.
- Excellent problem-solving abilities and attention to detail.

If you're ready to contribute your expertise to the construction and assembly of maritime vessels, we want to hear from you!
