Description:

Based within our Corporate Finance practice, Senior Analysts work on client M&A-related engagements or fund raising mandates to perform financial and industry-related analysis and provide support to the team on execution.

Responsibilities:

You will be working on some of the most challenging mandates within the rapidly transforming TMT landscape.

Our offices are strategically placed in key hubs around the world to offer you the opportunity to experience different cultures, be intellectually stimulated and work in a collaborative manner.

We are a boutique organization where even at the junior level you will have significant client exposure & impact.

Opportunities to be exposed to diverse mandates at an international scale.

Strong focus on learning and development to provide you a steady and advanced career path.

A collaborative and 'family' focused environment with your colleagues.

Deep specialization in the TMT sector where you will become a true advisor in the TMT space.

Attractive base compensation and performance-based bonus.

Requirements:

Perform complex analysis independently and with the support of other senior members in the team.

Build advanced and detailed business/financial models with excel or other modelling tools to evaluate performance under various operating scenarios.

Perform valuation analyses using various available valuation methodologies.

Conduct market research and summarize findings and conclusions, based on large amounts of data.

Participate in team and client discussions and ensure key takeaways are captured

Prepare benchmarking studies on specific topics.

Design and create presentations for use in client-meetings or for internal discussions, covering topics such as strategic alternatives, M&A and corporate finance.
