Company: Masstechme

Location: dubai

Category: other-general

**Job Overview:** We are seeking a skilled Android Developer to join our team. The successful candidate will work on developing, maintaining, and updating Android applications that meet the needs of our clients. The Android Developer will be responsible for creating high-quality code, debugging, testing, and documenting code changes. They will collaborate with other developers, project managers, and clients to ensure the timely delivery of projects and the highest levels of client satisfaction. The ideal candidate will have a passion for technology, a solid understanding of the Android platform, and experience in creating innovative solutions.

**Responsibilities:**

Develop, maintain, and update Android applications

Create high-quality code that meets coding standards and best practices

Debug, test, and document code changes

Collaborate with project managers, developers, and clients to ensure successful project delivery

Stay up-to-date with the latest Android development trends, techniques, and technologies

Troubleshoot issues and provide effective solutions

Conduct code reviews and ensure code quality and consistency

Work on multiple projects concurrently while meeting project deadlines

**Requirements:**

Bachelor's degree in Computer Science, Computer Engineering, or related field

Proven experience in developing Android applications

Strong understanding of the Android SDK, Android Studio, and related tools

Excellent knowledge of Java, Kotlin, and other programming languages

Familiarity with RESTful APIs and JSON

Experience with database management systems such as SQLite and MySQL

Ability to work independently and as part of a team

Excellent problem-solving and analytical skills

Strong communication and interpersonal skills

Demonstrated ability to learn and adapt to new technologies quickly
