Description:

We're looking for an ARABIC SPEAKING Product Owner with a Commercially driven mindset, someone who can take ownership of several revenue streams for the business, identify opportunities for growth and execute strategies working with stakeholders in all areas of the business.

Responsibilities:

Defining strategic roadmap for each stream (e.g. Cleaning, Beauty, Healthcare) with the Founding team

Designing and helping execute initiatives to boost overall performance on every line. This will entail working with a cross-section of the company from marketing, to customer care, to tech.

Reporting and analyzing the performance of our services: Downloads, Traffic, Active Users, Consumption, Revenue, Return Use, LTV...etc, identifying areas where we can improve.

Requirements:

Stellar analytical skills: comfortable with numbers, reports and analysis. Intermediate/Advanced excel and database analytical skills required

Minimum 2 years of experience in the field of Digital Marketing/Data Analytics.

Experience with Online-Based/E-Commerce companies is a plus.

Minimum Bachelor's degree in an Engineering or Management related field (e.g. Marketing, Business, Economics, Finance) from a reputable university
