Company: AE Recruitment

Location: dubai

Category: other-general

Job Description

An exciting opportunity to work with a well-established international design practice in their Dubai office. Our clients are looking for an experienced Architectural Resident Engineer to manage a large-scale residential building project. The right candidate will need at least 15 years' experience with five years in mid- and high-rise residential building projects as a Resident Engineer. Must have experience working in the Middle East.

Duties and Responsibilities

Assign resources to create a project team capable of completing the project effectively and efficiently.

Lead a team of specialized consultants to ensure the project's success.

Ensure that a Project Execution Plan, Health and Safety Plan, Quality Assurance/Quality Control Plan, and other documents are established and implemented.

Ensure accuracy, completeness, and timely turnaround of records.

Must have strong skills to coordinate large projects.

Oversee, review, monitor, and report on project risk closure and progress.

Ensure final approval of works and arrange handover with client and occupier.

Requirements

Minimum a bachelor's degree in architecture or civil engineering.

15+ years' experience with at least 5+ years' experience in mid- and high-rise residential building projects as a Resident Engineer.

High-rise experience is a must.

Middle East experience is essential.

Benefits

- Approx 40,000 AED

- Flights

- Healthcare
