Professor, Sustainable Engineering Job Description The Department of Civil and Environmental

Engineering at the UAE University invites applications for a faculty position in Sustainable Civil

Engineering. We are interested in highly motivated individuals who are able to provide

research contributions in two or more of the following areas; resilient infrastructure, green

construction technologies and materials, sustainable water and land resource management,

and environmental systems engineering with emphasis on multi-scale validation. The above-

mentioned areas should rely on evolving fundamental knowledge along with

methodological developments of multidisciplinary research. We, therefore, invite applications for

a faculty position at the Assistant Professor/Associate Professor/Professor level in Civil

Engineering. Applicants should hold a BSc degree in Civil Engineering and Ph.D. in

Civil/Environmental/Sustainable Engineering from a well-recognized university. Prior work

experience in environmental data analytics and life cycle assessment in civil engineering-

related systems will be an added advantage. The successful candidate is expected to

develop an innovative and recognized research program leading to an outstanding record of

scientific accomplishments. As a faculty member at the UAE University, the successful

candidate is expected to excel in undergraduate and graduate teaching of core and

multidisciplinary subjects of civil and environmental engineering. A Ph.D. degree from a

reputable international university in Civil/Sustainable Engineering. Preferred

Qualification Demonstrated record of publications in leading international scientific journals in the area of Sustainable Engineering; Ability to develop and secure sponsored research that involves both undergraduate and graduate students; Ability to teach a variety of graduate and undergraduate courses and to develop new courses or course components in the areas of Civil/Sustainable Engineering; Ability to supervise capstone graduation project in the area of Civil/Sustainable Engineering; and Strong communication skills and ability to work collegially and collaboratively with diverse internal and external constituencies Duties Teach and develop undergraduate and graduate courses in the area of Civil/Sustainable Engineering. Conduct original research that leads to publications in top-tier refereed journals. Student advising and mentoring at the undergraduate and graduate levels. Supervising M.Sc . and Ph.D. students and research assistants/associates; Develop and sustain externally funded research projects. Participate in Department, College, and University committees and actively engage in promoting the growth of the College of Engineering at UAEU and its role in society. Special Instructions to Applicant Applicants should submit the following documents: cover letter; CV (including contact info); Names and email of 3 references Division College of Engineering - (COE) Department Civil & Environmental Enginr.-(COE) Job Category Academic - Faculty Contact Person: If you wish to apply for this position, please specify that you saw it on AKATECH.tech
