Company: Stantec Consulting International Ltd.

Location: abu dhabi

Category: other-general

22853BR

Requisition Number:

22853BR

Description:

At Stantec, we approach every project as a partnership, because our work creates a lasting impact on our clients' communities. We believe that when smart, passionate, creative people come together, real possibilities are within reach.

Our people are at the heart of everything we do; they give our work purpose. If you want to be a part of our unwavering team and can bring your sense of imagination and determination to every challenge, then this is the right place for you.

Due to the continued success of our Middle East operations, we are looking for an Assistant Resident Engineer to join our operations in Abu Dhabi.

Your responsibilities will be as follows:

Contribute to the growing ME Industrial by providing technical expertise in specialist areas of Instrumentation, Control and Automation, SCADA and Safety Instrumented Systems. The candidate to have sufficient background in water and wastewater treatment and pumping stations, with further experience in SCADA and communications. To have broad experience in the design, specification and commissioning of electrical equipment, instrumentation and control systems (hardware and software) and SCADA for projects.

You will be required to be involved in designing, managing and implementing the delivery of leading edge programs and projects.

You should build strong rapport with clients at a senior level, ensuring a relationship of trust, respect and ethics are always present.

Understand the Middle East budgetary targets for Industry and HSE Group and be able to translate those to projects

To determine client's needs and achieve results to meet and exceed client's expectations.

Must ensure the project deliverables adhere to Stantec Global Project Delivery Framework and all Operational policies and procedures.

Plan project and co-ordinate resources in liaison with project managers efficiently.
