An Assistant Engineer will assist the recording engineer in operating the soundboard and other electrical equipment during the recording session, usually in the recording studio. They will assist in recording, editing, mixing and mastering sound using a range of specialized mechanical and digital equipment.

Job Responsibilities

Rehearse and refine live room transitions between Recording Mode, Performance Mode and Cinema Mode;

Assist in setting up and testing sound equipment, conducting sound checks;

Set up and test the PA, amplifiers, cabling and monitor wedges;

Act as our backline team, supporting the audio, lighting and musician's requirements;

Calibrate and coordinate the in-ear monitor requirements for the musicians ensuring a noise-free frequency spectrum for the wireless in-ear system;

Job Requirements

Bachelor's degree in relevant field;

Experience in films/albums/advertisements and jingles/music videos;

Experience working with producers, composers, singers and other artists;

Experience working in global music industry;

Experience using studio video equipment;

Proficient in DAW's, audio plug-ins, analog audio equipment, and music production techniques;

Knowledge and good understanding of motion graphics;
