Associate Consultant

114047BR

Job Description

Role – Associate Consultant

Technology – Middleware Administration

Location – UAE- Abu Dhabi

Business Unit – CISFS2

Job Description

Today, the corporate landscape is dynamic, and the world ahead is full of possibilities! None of the amazing things we do at Infosys would be possible without an equally amazing culture, the environment where ideas can flourish and where you are empowered to move forward as far as your ideas will take you.

At Infosys, we assure that your career will never stand still, we will inspire you to build what's next and we will navigate further together. Our journey of learnability, values and trusted relationships with our clients continue to be the cornerstones of our organization and these values are upheld only because of our people.

Responsibilities

- Oversee the installation, configuration, and maintenance of middleware technologies, ensuring optimal performance and reliability.
- Diagnose and resolve issues related to middleware components, collaborating with relevant teams to implement effective solutions.
- Implement measures to enhance the performance of middleware systems, conducting regular assessments and optimizations.
- Ensure the security and integrity of middleware infrastructure through the implementation of security protocols and regular audits.
- Coordinate and execute middleware software upgrades and patching activities, keeping systems up-to-date with the latest releases.
- Maintain comprehensive documentation for middleware configurations, processes, and troubleshooting procedures.
- Work closely with other IT teams, vendors, and stakeholders to understand requirements and provide seamless integration of middleware solutions.
- Establish and maintain effective monitoring processes to proactively identify and address potential issues, ensuring high system availability.

Requirements

- Experience: hands-on experience as a Middleware Administrator in a large-scale enterprise environment.
- Middleware Technologies: Proficiency in administering middleware technologies such as (Apache, TOMCAT, WebLogic, IIS).
- Certifications: Relevant certifications in middleware technologies would be advantageous.
- Problem-Solving Skills: Strong analytical and problem-solving skills with the ability to troubleshoot complex issues.
- Communication: Excellent communication skills with the ability to convey technical information to non-technical stakeholders.
- Team Player: Ability to work effectively in a collaborative team environment.
- Flexibility: Willingness to work outside regular business hours for maintenance and critical issue resolution.

About Infosys

Infosys is a global leader in next-generation digital services and consulting. We enable

clients in 46 countries to navigate their digital transformation. With over three decades of experience in managing the systems and workings of global enterprises, we expertly steer our clients through the many next of their digital journey. We do it by enabling the enterprise with an AI-powered core that helps prioritize the execution of change. We also empower the business with agile digital at scale to deliver unprecedented levels of performance and customer delight. Our always-on learning agenda drives their continuous improvement through building and transferring digital skills, expertise and ideas from our innovation ecosystem.
