

Automation Test Engineer – Digital Banking

[Apply Now](#)

Company: Nair Systems

Location: united arab emirates

Category: other-general

Job Summary:

- Skilled QA Automation Engineer with a minimum of 6 years of experience in automation testing.
- The ideal candidate should have a strong technical background and experience in developing and maintaining automation scripts for web and mobile applications.
- As a QA Automation Engineer, you will be responsible for ensuring the quality of our software applications through automated testing processes.

Key Responsibilities:

- Design, develop and maintain automation frameworks and scripts for web and mobile applications
- Collaborate with cross-functional teams to identify test requirements and develop test strategies
- Work closely with developers and product owners to ensure quality standards are met
- Identify, report and track defects and issues throughout the testing process
- Monitor and report on the progress of test execution
- Analyze and report test results to stakeholders
- Continuously improve the automation testing process and framework

Joining time frame: 2 weeks (maximum 1 month)

NOTE: Should you be interested in this opportunity, please send your latest resume in MS Word format at the earliest
