Company: Gama Aviation LLC

Location: sharjah

Category: other-general

Job Details: B1/2 Licensed Aircraft Engineer Full details of the job. Vacancy Name Vacancy No Vacancy No VN884 Employment Type Employment Type Full-Time Division Division Ground Location / Position: B1/2 Licensed Aircraft Engineer / Location: Sharjah, UAE / Salary & Benefits: Commensurate with experience and global benefits / The Role Gama Aviation is actively seeking talented B1 and/or B2 Licensed Aircraft Engineers to join our dynamic and progressive Engineering Team at our facility in Sharjah. This opportunity is to support a fleet of aircraft through a dedicated workforce understanding the need to deliver impeccable service in an active operational environment for our high-profile clients. As part of this role, you must be prepared to work flexibly as part of a team and as an integral part of the Gama Aviation Engineering Group, possessing strong communication, organisation, and leadership skills. To be considered for this position you will hold an EASA or UK CAA or GCAA Part 66 B1 and/or B2 License, preferably with one of the following OEM type ratings: Bombardier Gulfstream Embraer Textron Preferred candidates will already hold one of the listed OEM type ratings, however applicants with other similar type ratings will be considered as training and type courses may be provided. The successful candidate will join a long established and respected forward-thinking company that has a proven history in career development within the organisation, with type and non-type training provided to develop your skills and capabilities. / Responsibilities: Responsible for the successful completion of all allocated, planned and ad-hoc maintenance tasks. Ensure the completion of scheduled customer order requirements when acting as supervising, certifying engineer for a given input. Responsible for the management of and performance/quality of performed works in compliance with applicable

company process and procedures. Ensure correct compliance with applicable regulatory requirements. Maintain the required engineering license and applicable type rating as required to perform duties and be responsible for ensuring licenses and type ratings do not lapse and are kept up to date. Accountable for providing professional communication with customers and contacts as required. Individual responsibility for booking accurate, and consistent timekeeping in applicable software system. Ensuring all actions contained within work orders have been accomplished using approved maintenance data. / Skills, Qualifications and Experience required: Essential A Part 66 License with Category B1 and/or B2. Previous aircraft line maintenance experience with a wide knowledge and skill range in inspection, repair, troubleshooting, servicing, and modifications. Satisfactory recency as required for issue of applicable certifying approval. Driving licence. Advantageous Hold a type rating for Bombardier Global or Challenger. Due to the volume of applications received, only candidates selected for interview will be contacted. If you do not hear from us within 20 working days then your application has been unsuccessful on this occasion.
