Back End Developer Jobs In Dubai UAE 2023 | DIVERGE

About the job

We are seeking a talented Backend Developer to join our growing team. The successful candidate will be responsible for designing, developing, and maintaining the server infrastructure, APIs, and databases for our web and mobile applications. You will ensure the security and scalability of the backend infrastructure, and work closely with our front-end developers and product managers to deliver high-quality products.

Responsibilities:

- Design, develop, and maintain the server infrastructure, APIs, and databases for our web and mobile applications
- Ensure the security and scalability of the backend infrastructure
- Collaborate with front-end developers and product managers to develop new features and improve existing ones
- Optimize application performance by identifying and resolving issues related to the backend infrastructure
- Write efficient and maintainable code, and conduct code reviews to ensure code quality
- Participate in the full software development lifecycle, including requirements gathering, design, implementation, testing, and deployment
- Stay up-to-date with emerging trends and technologies in backend development, and make recommendations for improvements to our technology stack#J-18808-Ljbfrr
