### Back End Software Engineer Jobs In Abu Dhabi | Sundus

#### Description

We are looking for an analytical, results-driven back-end developer who will work with team members to troubleshoot and improve current back-end applications and processes. The Back-end Developer will use his or her understanding of programming languages and tools to analyze current codes and industry developments, formulate more efficient processes, solve problems, and create a more seamless experience for users. You should have excellent communication, computer, and project management skills.

#### Requirements:

Bachelor's degree in computer programming, computer science, or a related field.

More education or experience may be required.

Fluency or understanding of specific languages, such as Java, PHP, or Python, and operating systems may be required.

Strong understanding of the web development cycle and programming techniques and tools.

Focus on efficiency, user experience, and process improvement.

Excellent project and time management skills.

Strong problem-solving and verbal and written communication skills.

Ability to work independently or with a group.

Willingness to sit at desk for extended periods.
