

Backend Engineer Jobs in UAE | Udrive Remote

[Apply Now](#)

Company: Udrive Remote

Location: united arab emirates

Category: other-general

1- Backend Engineer

Job: Full Time

Location: Remote, UAE

Job Responsibilities:

Will work with a cross-functional agile team on the backend systems that power our platform. Somebody who is familiar with state of the art technology and development stack and best-practices, you have the option to contribute to the technology strategy and roadmap of the team.

Significantly contribute with your day to day work and deliverables to the overall success of our product.

Contribute to an engineering culture where developers enjoy working and keep learning.

Job Requirements:

Track record in building web applications in agile environments.

+3 years experience with any enterprise technology like Javascript and Node.js or similar.

Experience using any frontend frameworks like Vue.js, React or Angular.

You have very good knowledge of Git, development workflow automation and CI. Continuous Delivery is in our DNA.
