Stantec is currently looking for a BIM Architect to join our dynamic team and support on a construction supervision of a buildings project in Abu Dhabi.

At Stantec, we approach every project as a partnership, because our work creates a lasting impact on our clients' communities. We believe that when smart, passionate, creative people come together, real possibilities are within reach. Our people are at the heart of everything we do; they give our work purpose. If you want to be a part of our unwavering team and can bring your sense of imagination and determination to every challenge, then this is the right place for you.

Stantec is currently looking for a BIM Architect to join our dynamic team and support on a construction supervision of a buildings project in Abu Dhabi.

otA Passionate and detail-oriented BIM Technician with Architectural background with good

knowledge of the BIM standards and the BIM Execution Plan organization and procedures.

otCandidate must have knowledge in the BIM 4D, 5D and 7D and some site experience would be an advantage.

Responsibilities:

otCheck the BIM deliverables issued by the Contractor, which includes:

- tThe BIM models with LOD and LOI matching the Project stages.
- tReview 2D workshop drawings.
- tThe final handover and as-built documentation.
- tMultidisciplinary approach while collaborating with the engineering technical team and other department like QA/QC, Site management, etc.
- tThe review monitoring of the accurate coordination of the technical trades.
- tAs a BIM Architect /Civil/Structure Technologist, you will be responsible / involved in:
- tReview BIM models received from contractors based on Project BIM EIR and BEP
- tPerform detailed model review to meet LOD 300, 400 and 500 requirements
- tPerform BIM QA/QC process based on agreed checklists and standards.
- tPerform clash detection process and classify clashes.
- tAttend internal coordination meeting
- tPlayed a key role in discipline drawing reviews based on the approved BIM model.
- tAssist the discipline engineer in BIM model information extraction, including sketches, schedules, etc...
- tPrepare draft BIM progress reports per discipline as requested.
- tPerform bespoke modelling activities when requested.
- tExperienced with BIM modelling activities of all Building Services requirements, respecting internal processes, project standards and industry best practices.
- tExperienced with Revit project environment setup with respect to Project BEP.
- tProduction of the field engineering and construction working drawings as part of the production team. BIM documentation, printing, binding, and other CAD-related assistance for the Project and Discipline Engineers.
- tContribution to the spatial design coordination process using the Navisworks platform
- tSupport the Data exchange within project-deployed CDE at various construction stages.
- tWorks under the direct supervision of the BIM Manager / Sr. A/E BIM Coordinator and is responsible for all of the production and drafting tasks directly assigned to them by the BIM

Manager or Discipline Manager.

- Providing multi-disciplinary modelling assistance for the project team as assigned.
- Mentoring junior technologists
- Completing tasks within timelines and budgets, respecting the team's plans ahead of time.
