Company: Stantec Consulting International Ltd.

Location: dubai

Category: other-general

22842BR

Requisition Number:

22842BR

Description:

Stantec Dubai is currently seeking a BIM Coordinator to support ongoing projects.

Project Responsibilities include:

- Assist in Setting up, developing and delivering structured BIM models for projects within the discipline.
- Ensure that all CAD and BIM data comply with the BIM Project Execution Plan.
- Support generative design with routines automation.
- Support the setup, development, configuration, establishment of the Common Data Environment (CDE) for project use.
- Ensure Project Information Models (PIM's) are delivered in accordance with the agreed TIDP, MIDP and CDE protocol.
- Support, update and maintain QA/QC check templates
- Measure and ensure the highest quality for all BIM package submissions in accordance with project standards and requirements
- Record, store and maintain all formal correspondences related to BIM activities
- Perform QA/QC checks and maintain QA/QC check tracker
- Review, monitor and report on the development of clash interference and fully coordinated models

- Conduct clash detection and visual walkthroughs respecting clash severity matrix and prioritization.
- Prepare own discipline model and/or content for internal reviews and coordination meetings
- Review BIM submission from trade Contractors
- Monitor and validate testing and commissioning data in models
- Monitor and support the data collection process and validate Asset Information Models (AIM's) and Client Specific requirements.

Internal Responsibilities:

- Ensure alignment with Stantec BIM strategy and best practices.
- Development and maintenance of Revit content library for the projects.
- Provide guidance and assistance with design projects to ensure they are setup and progress optimally, and teams are using modeling platforms appropriately.
- Add insight and make recommendations to add efficiencies and value to BIM production.

Title:

BIM Coordinator – MEP

Qualifications:

- 7+ years' experience in design, production, engineering, administration using BIM Platforms.
- National Diploma or National Certificate in Engineering.
- Demonstrate expertise in preparation of 3D BIM models and construction documents using latest versions of Revit Mechanical, Navisworks, AutoCAD and Design Review.
- Basic / Advance knowledge of Dynamo
- Additional knowledge of parametric modeling, python scripting is a plus.
- Sufficient knowledge and familiarity with mechanical building design (systems, components)
- Integration of Revit products with other authoring, collaboration platforms/applications
- Strong written and communication skills.
- Ability to innovate and find new ways to optimize productivity and efficiency.
- Ability to take additional responsibilities as needed as well as determine and manage priorities with minimum guidance.
- Must possess and maintain exceptional work ethic as well as uphold company values and demand the highest standard of conduct from self and others.
