Company: Stantec Inc

Location: Dubai

Category: healthcare-practitioners-and-technical

22843BR

Requisition Number:

22843BR

Description:

Stantec Dubai is currently seeking a BIM Coordinator to support ongoing projects.

Project Responsibilities include:

- . Assist in Setting up, developing and delivering structured BIM models for projects within the discipline.
- . Ensure that all CAD and BIM data comply with the BIM Project Execution Plan.
- . Support generative design with routines automation.
- . Support the setup, development, configuration, establishment of the Common Data Environment (CDE) for project use.
- . Ensure Project Information Models (PIM's) are delivered in accordance with the agreed TIDP, MIDP and CDE protocol.
- . Support, update and maintain QA/QC check templates
- . Measure and ensure the highest quality for all BIM package submissions in accordance with project standards and requirements
- . Record, store and maintain all formal correspondences related to BIM activities
- . Perform QA/QC checks and maintain QA/QC check tracker
- . Review, monitor and report on the development of clash interference and fully co-ordinated models

- . Conduct clash detection and visual walkthroughs respecting clash severity matrix and prioritization.
- . Prepare own discipline model and/or content for internal reviews and coordination meetings
- . Review BIM submission from trade Contractors
- . Monitor and validate testing and commissioning data in models
- . Monitor and support the data collection process and validate Asset Information Models (AIM's) and Client Specific requirements.

Internal Responsibilities:

- . Ensure alignment with Stantec BIM strategy and best practices.
- . Development and maintenance of Revit content library for the projects.
- . Provide guidance and assistance with design projects to ensure they are setup and progress optimally, and teams are using modeling platforms appropriately.
- . Add insight and make recommendations to add efficiencies and value to BIM production.

Title:

BIM Coordinator - Structural

Qualifications:

- . 5+ years' experience in design, production, engineering, and construction administration using BIM Platforms.
- . National Diploma or National Certificate in Engineering.
- . Demonstrate expertise in preparation of 3D BIM models and construction documents using latest versions of Revit Structure, Navisworks, AutoCAD and Design Review.
- . Additional knowledge of parametric modeling, python scripting is a plus.
- . Basic / Advance knowledge of Dynamo
- . Sufficient knowledge and familiarity with mechanical building design (systems, components)
- . Integration of Revit products with other authoring, collaboration platforms/applications
- . Strong written and communication skills.
- . Ability to innovate and find new ways to optimize productivity and efficiency.
- . Ability to take additional responsibilities as needed as well as determine and manage priorities with minimum guidance.
- . Must possess and maintain exceptional work ethic as well as uphold company values and demand the highest standard of conduct from self and others.
