Blockchain Kotlin Engineer

Apply Now

Company: Trust Wallet

Location: United Arab Emirates

Category: healthcare-practitioners-and-technical

Company Description

Trust Wallet is the world's most inclusive, chain-agnostic, self-custody wallet that serves tens of millions users globally. Trust Wallet provides a secure, seamless and intuitive gateway to the crypto and NFT ecosystems. Our users are able to send, receive, stake, mint and store across 4.5+ million cryptocurrencies on 66+ blockchains, including Ethereum, BSC, Polygon, Solana, Avalanche, etc. Our developer community of different projects relies on us to reach millions of their users, build their own wallets, and grow crypto adoption.

Job Description

As a Blockchain Kotlin Engineer, you'll join a highly autonomous team of engineers dedicated to expanding the capabilities of our library Wallet Kit designed to unify blockchain logic for iOS, Android/JVM, and Web/JS platforms. You will play a pivotal role in developing new features, supporting a wide array of blockchain functionalities, and ensuring the library's adaptability across different platforms. Your contributions will directly impact the ease with which developers integrate blockchain technologies into their applications, fostering broader adoption and enhancing user experiences.

Qualifications

Minimum 4 years of software engineering experience, with a strong focus on Kotlin and SDK/Library development.

Solid understanding of blockchain technology, smart contracts, and decentralized applications. Familiarity with the intricacies of blockchain integrations and how they interact with various SDKs.

Strong problem-solving skills and the ability to work autonomously within a fast-paced, high-stakes environment.

Excellent communication skills, with a proactive approach to client support and team collaboration.

Adept in modern development practices, including automated testing and continuous integration for library development.

Responsibilities

SDK Development: Spearhead the design, development, and optimization of Kotlin Multiplatform SDKs for blockchain wallets. Drive the open-source transition of SDK.

System Architecture: Design robust architectures ensuring that the SDK integrates seamlessly with various blockchains and third-party systems.

Feature Innovation: Take the lead in enhancing and expanding the capabilities of the SDK, making it adaptable to the ever-evolving blockchain landscape. Explore blockchain innovation to bring to the SDK and our clients.

Collaboration and Documentation: Craft clear, comprehensive documentation for SDK. Offer proactive support to developers, guiding seamless integration and troubleshooting potential issues to safeguard user assets.

Additional Information

Nice to have:

Previous engagement in blockchain-specific projects, especially related to wallet development.

Open-source contributions and long-term engagements

Experience with iOS/Android/Web platforms

Deep understanding of distributed systems and cryptographic principles.

Proficiency in working with different blockchain protocols and standards.

Previous experience in Golang, Rust or Solidity is a plus.

Working at Trust Wallet

Do something meaningful; Be a part of the future of finance technology and the no.1 company in the industry

Fast moving, challenging and unique business problems

International work environment, flat organization, flexible working hours

Great career development opportunities in a growing company

Possibility for relocation and international transfers mid-career

Competitive salary

You must have the right to work for the country you are based.

Why work at Trust Wallet

Be a part of the world's leading blockchain ecosystem that continues to grow and offers excellent career development opportunities.

Work alongside diverse, world-class talent, in an environment where learning and growth opportunities are endless.

Tackle fast-paced, challenging and unique projects.

Work in a truly global organization, with international teams and a flat organizational structure.

Enjoy competitive salary and benefits.

Balance life and work with flexible working hours and casual work attire.

Apply today to join our team in building the world's most trusted and secure crypto wallet and enable a decentralized future for everyone.

Trust Wallet is committed to being an equal opportunity employer. We believe that having a diverse workforce is fundamental to our success.
