Black & Grey HR is recruiting for a distinguished engineering services leader in the UAE, specializing in BMS solutions. Our client is looking to hire a Building Management System Engineer who will not only oversee complex BMS operations but also drive initiatives in lighting control, metering solutions, and energy efficiency. This role is central to optimizing building systems and liaising with key stakeholders to ensure the highest operational standards are met.

Responsibilities

Building Management Systems (BMS): Implement and oversee the operation of BMS to control and monitor various building systems, including HVAC, lighting, metering, and chiller plants.

Lighting Control Systems: Design and manage lighting control systems to enhance energy efficiency and occupant comfort.

Metering Solutions: Monitor and manage energy consumption through metering solutions, ensuring efficient utilization of resources.

Variable Air Volume (VAV) Systems: Optimize VAV systems to maintain optimal indoor air quality and temperature while minimizing energy usage.

Valves & Actuators: Efficiently operate and maintain valves and actuators within building systems.
