Bridge Design Engineer Jobs in Sharjah | Jacobs Careers UAE

Description:

Our bridge team in the Middle East is experiencing exciting growth and we have a need for a strong Bridge Engineer, who is committed to delivering major bridge schemes throughout the Middle East. You will be working on a number of high-profile projects, including long-span crossings, international bridges, architecturally led bridge designs, design and build schemes, and local authority commissions.

Responsibilities:

To contribute to delivering bridge projects on time, on budget, quality, and to the client's requirements.

Liaison with the client to develop technical solutions.

Managing the workflow and delivery from remote centers.

Requirements:

At least 10 years' experience with experience designing railway bridges.

Highly proficient in using software/tools associated with structural modeling (MIDAS, RM, Structural bridge design) and BIM.

Thorough knowledge of Euro codes, DMRB and AASHTO.
