My Account Options Your Impact: Discover Limitless Opportunities in Your Career at Jacobs. A world where YOU can! Are you seeking a rewarding career with endless possibilities? Look no further! We have the perfect opportunity for you to excel on a global stage while making a significant contribution to the development projects that are key to the continued prosperity and growth of the U.A.E. By joining Jacobs you will unlock a world of professional growth and networking opportunities. With our global presence across 40+ countries, you'll have the opportunity to connect and work with some of the world's most talented and influential professionals, expanding your reach and opening doors to new horizons. Job stability is paramount, and we understand your need for a secure future. By becoming part of our team, you'll benefit from our strong global pipeline of work providing you with a solid foundation to take your career to new heights. Are you ready to contribute to the nation building strategies of Vision 2031. Your skills and expertise will play a crucial role in shaping the future of this great nation. At Jacobs, we're challenging today and reinventing tomorrow as our global employee community turn abstract ideas into realities that transform the world for good. Jacobs have exciting opportunities for U.A.E Nationals across all of our rapidly growing and buoyant business sectors: Utilities, Environment & Infrastructure, Transport & Logistics, Ports & Maritime, Strategic Consulting, Cities & Places, Sales Operations and Corporate Services. Together, we deliver major infrastructure projects, create sustainable environments, revolutionize power and energy systems, promote renewable resources, enhance healthcare services, build world-class

sporting facilities, and transform tourism experiences. As a Bridge Design Engineer, you will be given the opportunity to participate in the delivery of major bridge schemes throughout the Middle East. You will be working on a number of high-profile projects, including long-span crossings, international bridges, architecturally led bridge designs, design and build schemes, and local authority commissions. You will be empowered to provide technical design inputs and manage elements of the delivery whilst contribute to delivering bridge projects on time, on budget, and quality, and to the client's requirements. You will have autonomy over delivering sound design solutions, including technical ones that meet client requirements, liaising alongside the team to develop technical solutions to ensure compliance with management. Here's What You'll Need: You will be U.A.E National that holds an accredited Bachelor's degree in Structural / Civil Engineering from a recognized institution. Demonstrated experience in design and build schemes. A working proficiency in using software/tools associated with structural modeling (MIDAS, RM, Structural bridge design) and BIM. Knowledge of international specifications and GCC authorities/local municipality requirements / knowledge of Euro codes, DMRB and AASHTO is advantageous. Don't miss out on this extraordinary opportunity to be at the forefront of progress. Join us now and embrace a future where your talent will shine, and your contributions will leave a lasting legacy. Jacobs.
