

Broadcast Automation Engineer

[Apply Now](#)

Company: Evertz

Location: united arab emirates

Category: other-general

You will be leading the commissioning of Broadcast Automation systems internationally in a professional and timely fashion. You will be working with a Project Manager as part of a team to deliver the system to an agreed specification through the project life cycle. This role would suit a person with a desire to work in a diverse position where there is always something new to learn. Being a global company, there are many opportunities to work closely with some of the largest broadcasters in the world. On-site work is sometimes required and affords the opportunity to travel to some of these leading edge facilities. We emphasize teamwork, promote creativity and enjoy being at the forefront of high-tech in our industry.

Responsibilities: Assist in the building and commissioning of the project. Carrying out the tasks required to deliver the project to the agreed specification. Reporting progress and issues to internal stakeholders. Debugging and resolving issues. Gathering data and reporting back to the development department for resolution.

Qualifications: Degree in IT, Computer science, Electronics and Broadcast Technology or similar degrees

Knowledge and Experience: SQL. Cloud and virtualization technologies. Fault finding, problem solving and good reporting skills. Networking

What we offer: Work-life balance. Career progression. Fast paced environment with opportunity to learn broad range of technical skills. Casual work environment. Social events

About Evertz: Evertz Microsystems (TSX:ET) is a leading global manufacturer of broadcast equipment and solutions that deliver content to television sets, on-demand services, WebTV, IPTV, and mobile devices (like phones and tablets). Evertz has expertise in delivering complete end-to-end broadcast solutions for all aspects of broadcast production including content creation,

content distribution and content delivery. Considered as an innovator by their customers, Evertz delivers cutting edge solutions that are unmatched in the industry in both hardware and software. Evertz delivers products and solutions that can be found in major broadcast facilities on every continent. Evertz' customer base also includes telcos, satellite, cable TV, and IPTV providers. With over 2,000 employees, that include hardware and software engineers, Evertz is one of the leaders in the broadcast industry. Evertz has a global presence with offices located in: Canada, United States, United Kingdom, Germany, United Arab Emirates, India, Hong Kong, China, Singapore, and Australia. Evertz was named one of Canada's 50 Best Managed Companies, which recognizes excellence in Canadian-owned and Canadian-managed companies. Canada's 50 Best Managed Companies identifies Canadian corporate success through companies focused on their core vision, creating stakeholder value and excelling in the global economy. Evertz makes certain there is an equal employment opportunity for all employees and applicants for employment, including persons with disabilities. In compliance with AODA, Evertz will strive to provide accommodation to persons with disabilities in the recruitment process upon request. If you are selected for an interview and you require accommodation due to a disability during the recruitment process, please notify Human Resources upon scheduling your interview. Thank you for considering a career with Evertz!
