Company: Michael Page

Location: United Arab Emirates

Category: healthcare-practitioners-and-technical

Truly exciting opportunity to work in a high-profile engagement|Must have experience in the payments or financial services domain

### About Our Client

A prominent IT services organisation seeking professionals in Business Architecture

### Job Description

Liaise with Product Development Managers and Enterprise Architects to establish a business architecture methodology to capture key enterprise value.

Support upcoming product roadmaps initiatives by developing and maintaining business capability models, process maps, and data models.

Document end-to-end business processes, including payment processing, risk assessment, compliance monitoring, and fraud detection, with a focus on leveraging technology for efficiency and effectiveness.

Assess existing systems, processes, and technologies to identify gaps, risks, and

opportunities for improvement, and propose innovative technology-driven solutions.

### **The Successful Applicant**

8+ years of experience in Business Architecture or related fields.

Proven experience in financial services domains such as payments, compliance, fraud, or financial crime.

Proactive, decision-taking individual with outstanding problem-solving skills.

Analytical, detail oriented and possesses strong statistical skills.

### **What's on Offer**

Exciting role with scope to drive strategic programs and initiatives.

Opportunity to work with influential stakeholders keen on driving change with exciting pace and impact.
