Business Project Developer Jobs In Ajman | Tesla Industries, Inc.

With 30,000+ Superchargers, Tesla owns and operates the largest global, fast charging network in the world. Located on major routes near convenient amenities, Superchargers keep our customers charged when they are away from home.

As the expansion of our charging infrastructure continues to grow, we are now hiring a Project Developer in the United Arab Emirates to continue to develop the Supercharging network by finding and signing the best locations for our Superchargers within the United Arab Emirates. In your day-to-day activities you will work on market research, prospecting potential site hosts, pitching our proposition, negotiating, and closing deals. #J-18808-Ljbfrr
