Claris FMP Developer Jobs In Ajman | eWorks Global

Description

We are looking for a talented developer to join our experienced development team. In this role, you will be responsible for designing, coding, testing, modifying, and implementing new or existing software products. Your duties will include liaising with the development managers, writing clean, scalable code, creating testing protocols, fixing bugs, and deploying programs.

Requirements: Bachelor's degree in computer science, computer engineering, or information technology.

Advanced knowledge of programming languages including JavaScript, HTML5, Java, C++, and PHP.

Knowledge of software systems and frameworks including AngularJS, Git, GitHub, and .NET.

Experience with object-Relational Mapping (ORM) frameworks.

Familiarity with Agile development technologies.

Ability to learn new languages and technologies quickly.

Good communication skills.

Ability to work as part of a team or individually on a project.

Ability to work well under pressure.#J-18808-Ljbffr
