About the job

Clinical pathologists may also be involved in the development of new testing methods or procedures. This can include developing new techniques for analyzing tissue samples or other types of specimens.

Requirements

Education: Most clinical pathologists earn a doctor of medicine degree, also known as a medical degree, before pursuing a career in this field. During their medical school education, students learn about the human body, diseases, treatments and other related topics.

After completing medical school, clinical pathologists must complete a residency program. During this program, they gain hands-on experience in a clinical setting. They may specialize in a certain field, such as pathology, during their residency.
