Company: STAR SERVICES LLC

Location: Abu Dhabi

Category: healthcare-practitioners-and-technical

Job Description

Location: Onshore

To set up and operate computer numerical control (CNC) machines for cutting & production and to ensure production plans are met.

A successful CNC machine operator to be safety-focused and understands the importance of precision and quality.

RESPONSIBILITIES

- . Performing visual inspections on incoming raw materials and verifying it with drawing requirements
- . Operating CNC machines properly by creating cutting programs manually on the machine or by importing cutting files.
- . Reading and interpreting drawings

- . Producing cut parts and items to meet dimensional tolerances without defects.
- . Monitor quality by taking measurements, detecting malfunctions, adjusting and reprogramming control.
- . Awareness of different types of CNC machines (coping rolled section, pipe profiling, plate cutting) and different types of materials (carbon steel and stainless steel).
- . Adhere to quality assurance procedures and processes.
- . Comply with all applicable safety procedures and policies

Profile Description

Experience in operating CNC machines for at least 4 to 5 years

Good technical skills in reading and interpreting engineering drawings and sketches.

Experience in operating CNC machines that are equipped with plasma
