Job Category Sales About Salesforce We're Salesforce, the Customer Company, inspiring the future of business with AI+ Data +CRM. Leading with our core values, we help companies across every industry blaze new trails and connect with customers in a whole new way. And, we empower you to be a Trailblazer, too — driving your performance and career growth, charting new paths, and improving the state of the world. If you believe in business as the greatest platform for change and in companies doing well and doing good - you've come to the right place. About Team The Commerce Solution Engineering team is at the forefront of the entire Commerce technology landscape. This collaborative team works closely with sales to uncover real business problems faced by customers and prospects and develops solutions and processes to not only overcome these obstacles but deliver phenomenal digital transformation. From workshops, white-boarding, presentations, demonstrations and proof-of-concept builds, this team works closely with all areas of the business and all aspects of a wide technology stack. We're a fast-paced, light-hearted crew that works together to get the job done If you believe in business as the greatest platform for change and in companies doing well and doing good – you've come to the right place. About Role Develop deep solution expertise in Commerce Cloud to become a thought leader and trusted advisor to other SEs, sales teams and customers. Stay up-to-date with

industry trends, product developments, and best practices related to salesforce Commere Cloud. Build trusted relationships with a variety of stakeholders across sales, SE, sales programs, and product and product marketing to support the go-to-market strategy for Commerce. Key Responsibilities: Your role will be divided into the following activities: Direct customer engagements - You will work on business opportunities, from discovery to tailored demonstrations and presentations that showcase the value of our solutions. You will provide technical expertise during the sales process, addressing customer questions and concerns. You will work in close collaboration with SEs and AEs involved in those accounts. One-to-many customer sessions- you will share thought leadership and solution knowledge by running live customer sessions such as webinars and customer workshops to drive solution awareness and ACV. One to many internal education- you will share your expertise internally by running AE and SE enablement sessions and holding office hours. Asset creation - you will create highly relevant and reusable assets such as Consensus videos, holodecks, demo environments to allow others to self-serve. A great Solution Engineer is seen as the trusted advisor, and they focus on the following key areas: Discovery: Work closely with business stakeholders and technical resources to understand how to make organizations successful and to address pain points in their current efforts. Design: Create innovative solutions that demonstrate Commerce Cloud and its impact Deliver:Connect business requirements with Salesforce solutions to deliver presentations, demonstrations, workshops or white-boarding sessions that engage a business/technical audience. Enable the wider internal and external communities on Commerce trends, product developments, etc. Digest: Stay up-to-date on the latest Commerce product development and roadmap, industry trends, and industry news.
