Description:

We are looking for a Family Medicine responsible for investigating illnesses and preparing the appropriate treatment plan to assist that patient with getting healthy as soon as possible. In some cases, they may need to refer patients to specialized physicians for intensive care.

Responsibilities:

Creating patient health programs using historical data

Track individualized health programs

Provide comprehensive wellness examinations

Administer immunizations and vaccinations

Referring patients to other providers for specialized treatment

Schedule and administer follow up examinations

Educating patients in wellness programs

Supervising and managing a staff of nurses and medical assistants

Building long-term relationships with patients

Treating a wide range of medical issues

Coordinating care with other medical professionals

Caring for the whole patient, including mental and emotional concerns
