Description:

We are looking for a knowledgeable reproductive endocrinologist to identify and treat patients with infertility-related difficulties. The reproductive endocrinologist's responsibilities include conducting fertility preservation, in vitro fertilization, and treating infertility. You should also keep up-to-date with industry developments to provide patients with optimum chances of conceiving.

Responsibilities:

Examining patients' reproductive organs and gauging their fertility.

Performing physical examinations and laboratory tests.

Reviewing patients' individual and family histories.

Prescribing various treatments and medical procedures.

Conducting intrauterine insemination and in vitro fertilization.

Providing lifestyle and medical recommendations to complement treatment.

Requirements:

Bachelor's degree in chemistry, biology, or a related field.

Board certification as a reproductive endocrinologist.

Solid reproductive and fertility knowledge.

A compassionate and empathetic personality.

Strong organizational and leadership qualities.

Manual dexterity and physical stamina.
