Cybersecurity Awareness And Training Specialist Jobs in Dubai

Description:

Develop, continuously refine and deliver CyberSecurity awareness and training programmes across the Emirates Group to support our people and organisation through the fast-

changing macro-CyberSecurity threat landscape which impacts our business processes, systems, technology, ways of working, and culture. Partner with specialist Group departments, i.e., Learning and Talent, Corporate Communications, HR, IT, etc. to execute the necessary CyberSecurity awareness and change management activities to reduce risk to our Group CyberSecurity posture.

Job Responsibilities:

Develop tailored Cyber, Information Security and Privacy training content, working alongside the CyberSecurity Product Owners, Data Privacy Office, Business, and IT stakeholders, vendors, and partners and deliver this to participants through the most engaging and appropriate training delivery mechanism.

Facilitate the design and development of CyberSecurity awareness and training content including, but not limited to, the CyberSecurity awareness and training platform, knowledge bases, Vlogs, Blogs, or podcasting requirements that enhance the learning experience as well as coordinating Hackathons and Codefests.

Ensure the security awareness program communicates EK security policies and requirements to prevent cyberattacks and information breaches and to mitigate user risk. Through automation and technology identify the top human risks to our organization and the behaviours we need to change to mitigate those risks. Develop and maintain a security awareness program that effectively changes these behaviours, so our employees act in a secure manner, reducing the most risk to our organization.

Job Requirements:

Information Technology.

Experience working on CyberSecurity Awareness & Training initiatives using project and behavioural change management methods in a large organisation.

3 + year?s CyberSecurity platform administrative responsibilities – Exposure to a wide range of areas which have had a focus on the introduction of CyberSecurity to large, geographically disparate teams.

Knowledge and understanding of change management principles and methodologies
