Data Analyst Jobs In Abu Dhabi | Flow Talent

About the job

Determine and apply the appropriate machine-learning techniques using all types of data sources.

Continuously monitor model performance, validate, and refine models to ensure accuracy and relevance.

Ensure data integrity and quality throughout the data lifecycle by implementing data governance best practices.

Provide actionable recommendations based on data insights to optimise processes, improve operational efficiency, and drive revenue growth.

Develop dashboards and reports to monitor and track business performance.

Create reports and presentations to effectively communicate data-driven insights to stakeholders.

Requirement

Proficiency in programming languages such as Python, Java, Scala, and/or R.

Proficiency in data analysis and visualization tools such as Tableau, Qlik Sense, SAS VA, etc.

Knowledge of statistical analysis, predictive modeling, data mining techniques, and machine learning algorithms.

Proficiency in Microsoft Office particularly Word, Excel, and PowerPoint.

Outstanding written and verbal communication in English.

Applicants should be available for face-to-face interviews in the location mentioned above.
