Data Engineer Jobs In Sharjah | Thales

About the job

Location: Dubai, United Arab Emirates

In fast changing markets, customers worldwide rely on Thales. Thales is a business where brilliant people from all over the world come together to share ideas and inspire each other. In aerospace, transportation, defence, security and space, our architects design innovative solutions that make our tomorrow’s possible.

Thales has built a presence in the United Arab Emirates for over 35 years, and today has over 300 employees. Thales in the UAE is part of our Middle East business that has 1,800 people across Egypt, Iraq, Kuwait, KSA, Lebanon, Oman, Pakistan, Qatar and UAE. Together we delivered technology for the Dubai metro, the longest driverless metro network in the world and a fare collection system that processes up to 250,000 transactions per day. We make UAE a safer place by providing secure electronic payment solutions, cyber security systems and communications as well as security systems for Dubai International Airport and air traffic management and navigation systems for Abu Dhabi’s airport.

JOB OBJECTIVE

As Data Engineer, you will participate in the different phases of Thales Digital Transformation Projects. by collecting, modeling, and rendering our data in order to help end user to perform an accurate analysis of their business through reports and Dashboards.

Roles & ResponsibilitiesAssembling large, complex sets of data that meet non-functional and functional business requirements
