We are looking for an experienced transportation manager to be responsible for overseeing the logistics of our company's transportation-related activities. In this role, you'll be keeping track of transportation operations and ensuring that all policies, procedures, and safety rules are followed.

Responsibilities: Directing activities related to dispatching, routing, and tracking of transportation vehicles, aircraft, or railroad cars.

Planning, organizing, and managing subordinate staff members to ensure work is completed and consistent with the company's standards.

Directing investigations to verify and resolve customer or shipper complaints.

Collaborating with staff members to formulate and implement transportation-related procedures as well as company revenue goals and customer service objectives.

Arranging repairs and routine maintenance of transportation vehicles.

Complying with transportation-related policies, as well as safety rules, union contracts, and government regulations.

Promoting safe work activities by conducting safety audits, and attending company safety meetings. Requirements: Bachelor's degree in logistics, business management, engineering, or related field.

At least 2 years experience as a transportation manager in a similar industry.

Solid knowledge of the transportation industry and logistics.

Experience working with union contracts and transportation-related government regulations.

Critical thinking skills and knowledge of analytics.

Experience working with transport management systems and warehouse management software, such as FreightPath and Infoplus.

Ability to work well with team members and navigate stressful situations.

Excellent leadership skills.#J-18808-Ljbffr
