Company: MULTIGRAPAHICS PRODUCTION FZ LLC

Location: Dubai

Category: healthcare-practitioners-and-technical

We are seeking a talented and experienced Draughtsman (Joinery) to join our team. As a Draughtsman (Joinery), you will be responsible for creating detailed technical drawings and plans for the production of joinery products. You should have a strong understanding of joinery construction methods and possess excellent drafting skills.

Responsibilities

Create detailed technical drawings and plans for joinery products

Interpret architectural and engineering drawings to ensure accuracy and compliance

Collaborate with architects, engineers, and production team to gather necessary information for drawing creation

Modify designs based on feedback and specifications

Ensure all drawings are completed in a timely manner to meet project deadlines

Prepare and maintain the necessary documentation and records related to drawings

Stay up-to-date with industry trends and advancements in joinery construction techniques

Requirements

Proven experience as a Draughtsman (Joinery)

Proficient in CAD software and other relevant software applications

Strong understanding of joinery construction methods and materials

Excellent drafting and technical drawing skills

Attention to detail and accuracy

Ability to work in a collaborative team environment

Good communication and interpersonal skills

Knowledge of architectural and engineering drawings

Understanding of construction project timelines and deadlines
