Driving Operations

[Apply Now](#)

Company: DeRisk Technologies

Location: Al Halah Island

Category: healthcare-practitioners-and-technical

DeRisk Technologies seeks a reliable and detail-oriented individual to join our team as a driving operator. If you enjoy driving, possess excellent skills, and are passionate about technology, we want to hear from you!

Description

The Program's goal is to complete the mapping scope provided by our partner using Special Mapping equipment. The final product of the work is related to 360-degree panoramic imagery. We would give a car, mobile phone, and fuel card for gas and regular maintenance charges. Within the Projects, we aim to map assigned areas, important major business hubs, and marketplaces, including all public streets, highways, and off and on ramps. As a Driving Operator, you will collect imagery in separate locations as planned through operations. You will ensure collections go as smoothly as possible and as per the plan. The Driving Operator must clock in at the beginning and end of the day and be willing and ready to upload daily expenses on the approved portal. We will be responsible for parking the provided cars in a gated space equipped with Closed Circuit Television (CCTV) or posted security guards; hence, the driver must not park in public areas after the shift ends.

Duties

Drivers should cover 40 hours per week

Drivers are responsible for ensuring the car is operational daily

Will be responsible for parking and securing assigned cars at the end of each day

Cars are not permitted to be parked in public areas after the shift has ended. Approved parking must always be indoors or within a gated space equipped with Closed-Circuit Television (CCTV) cameras or posted security guards*

Will be required to climb on the roof of a car to cover camera lenses

Will be responsible for routine car maintenance - i.e. oil change, tire rotation, etc., and for maintaining any other equipment provided by the client.

Operate different types of client equipment, depending on the needs of the project(s).

will be responsible for sending data disks to the client, as instructed during training.

Will be responsible for reporting any issues or incidents related to the vehicle and/or the operations within the timeframe stipulated by the client.

Filling in reports as requested by managers (Operations, expenses, Details on captures)

Occasionally interactions with passers-by who might have questions or concerns may occur, and the driver should be representing the client in the best possible manner, without disclosing.

Start date is 5th of April

Position Profile

To be successful in this role, you should have:

General car knowledge

Valid driving license & clear driver's license record

Must live nearby the mapping area

Associate must enjoy driving, and be able to work in a flexible schedule

Team player, but also able to work alone

Must be fluent in English - both written and spoken, local language is a plus.

Technically savvy or Basic IT knowledge required

Able and willing to travel

Must possess excellent communication skills

Responsible, extremely punctual, self-motivated and detail oriented.

Proactive, Risk management and escalation understanding

Ability to deal with the public in a calm and rational manner.

Ability to pass a 5 Panel Drug Screen or Oral Fluid Drug Screen

Able to clear a Criminal Background Check

Additional language is a plus

Experience with commercial driving is a huge plus

Patient with extremely good attention to detail.

Must have a valid work permit.

Qualifications:

Previous experience in a similar driving or mapping role is a plus.

Comfortable using technology, including cameras and mapping tools.
