Category: other-general

ABOUT OneTeam:OneTeam, headquartered in Dubai, is a company that emerged as a spinoff after 15 years of VNGRS's domain experience, provides software consultancy services to Gulf Region countries, and consists of independent consultants from all over the world. At OneTeam; We love what we're doing, we don't pick favorite "clients/works". We understand our partners' needs, discover them even before they do. We're laser-focused, we listen to our partners well, from inception to completion. We own the work as it's our own and fight for it. We're authentic and genuine. We do not copy & paste. We seek what's the best practice and we create our own (internalized) solution. And our consultants; know what they're doing, why they're doing, not blown by the wind. have good communication skills, thus get on well with customers. interested in problem-solving, not stuck in the problem itself. Thus, result-oriented. focus on delivering, not making excuses. respect the experience yet don't hesitate to challenge in full force. willing to unlearn. About the position: DWH Specialist will be responsible for creating, optimizing and developing ETL flows, delivering better query/report performance and designing Data Warehouse architecture. Responsibilities Working closely with customer to understand their data sources, requirements, data architecture and data model Optimizing existing DWH dimensional model to deliver better decision making performance Implementing best practises for data warehouse modeling based on the requirements of the customer Identifying new data sources and integrating them to the DWH architecture using best practices Optimizing existing queries, reports and improving performance Creating new ad-hoc reports based on pure SQL depending on the client's requirements Creating/optimizing ETL processes based on customer's ETL tool of
