Company: Clarion Shipping Services L.L.C

Location: united arab emirates

Category: other-general

Industry Experience: Shipping, Freight Forwarding & Logistics. Reporting to: FORWARDING MANAGER JOB TYPE: FULL TIME Job Overview: An e-commerce executive well trained in IT with computer skills and knowledge in WMS (Warehouse Management Software), along with 2 years of warehouse operations and last-mile delivery experience, would be a valuable asset in the e-commerce industry. Here's a breakdown of the skills and qualifications such an individual might possess: Key Responsibilities: E-commerce Expertise: A strong understanding of e-commerce operations, including online store management, inventory control, product listings, and order processing. IT Skills: Proficiency in various IT tools and software used in e-commerce, such as e-commerce platforms (e.g., Shopify, WooCommerce, Magento), content management systems (CMS), and data analytics tools. Warehouse Operations: Experience in warehouse management, including inventory control, stock management, picking and packing processes, quality control, and compliance with safety and industry standards. Last-Mile Delivery: Understanding of last-mile delivery logistics, including route optimization, courier management, tracking systems, and customer communication. Knowledge of the challenges and solutions related to the final stage of delivery. Ability to integrate various technologies and software solutions to streamline e-commerce operations. This might involve connecting AMS with warehouse management systems and optimizing the integration between your e-commerce platform and last-mile delivery providers. Data Analysis: Proficiency in data analysis to make informed decisions regarding product trends, inventory management, and last-mile delivery optimization. Communication Skills: Effective communication skills are crucial for coordinating activities between different departments,

working with vendors and suppliers, and providing excellent customer service. Compliance and Regulations: Knowledge of relevant regulations and compliance standards in the e-commerce industry, including data privacy, consumer protection, and shipping regulations. Qualifications: Bachelor's degree in a related field (e.g., IT, Supply Chain, Business, or E-commerce). Strong IT skills and proficiency in e-commerce tools and software. In-depth knowledge of Warehouse Management Systems (WMS). 2 years of experience in warehouse operations. Proficiency in data analysis and problem-solving. Excellent communication and teamwork skills. Ability to adapt to a dynamic e-commerce industry.
