Category: architecture-and-engineering

### Embedded Software Engineer | DEVjobs Abu Dhabi

DEVjobs ist das erste Job- & Karriereportal im Internet, welches radikal auf die Bedürfnisse von Entwicklern abgestimmt ist. Nur hier bekommen Entwickler alle relevanten Informationen zu Arbeitsanforderungen, Arbeitsbedingungen und den Arbeitsplatz transparent und strukturiert dargeboten. Somit hilft DEVjobs nicht nur aktiv, sondern vor allem den 70% latent Jobsuchenden ihren Wunschjob zu finden.

### Embedded Software Engineer | DEVjobs Abu Dhabi | Apply Now

You have successfully completed studies in computer science, electrical engineering, or communications engineering, or an equivalent qualification

You have proficient German and English language skills, both spoken and written, for coordination within the team or with development partners

You possess good teamwork and communication skills

You are self-reliant and have a self-organized work style

Openness, curiosity, and the desire for continuous development drive you

#### Experience

You have experience in agile and systems-level programming in real-time environments using C / C++

Additionally, experience with Linux in the embedded field and DECT know-how in our deployment context would be very useful

It would be great if you already have experience in Bluetooth development, from audio transmission to position determination

Don't miss out on this exciting opportunity – apply now at [dubaiofferz.com](http://dubaiofferz.com)
