Position description

Job title

Emirati Graduate Mechanical Engineer M/F

Contract type

Permanent contract

Job description

Within the framework of our Emirati Graduate Program, Egis invites Graduate Mechanical

Engineers to embark on an enriching journey across diverse disciplines, focusing on design and construction supervision projects. The role entails contributing to the development and production of drawings, calculations, specifications, and reports, demonstrating a comprehensive understanding of design philosophy and fundamentals. Familiarity with Architect, Service Engineers, drawings and specifications is essential, and the position involves operating as an Engineer within a team under the close supervision of other Engineers and Senior Engineers, and working with a large team based all over the Middle East and internationally.

Graduate Program:

As a Graduate at Egis, you'll be a valued member of our team from Day 1 and work on real projects from the get-go. Under the guidance and mentorship of our experts and industry leaders you'll be equipped with the skills and knowledge to deliver the boldest solutions for the extraordinary and the everyday. Collaborating within a team structure, you will benefit from close supervision provided by seasoned Engineers, ensuring a supportive and enriching learning environment. The program is strategically crafted to accelerate your growth as a well-rounded engineering professional.

Profile

To thrive in this role, you should be an Emirati national holding a university degree in Mechanical Engineering, showcasing a keen interest in projects related to buildings or infrastructure. Your role will involve working alongside Senior Engineers, offering valuable input on infrastructure-related projects. With a curiosity-driven mindset, collaborative spirit, and strong communication skills, you'll find mentorship at every step to help you explore, learn, and contribute meaningfully to impactful projects, contributing to Egis's commitment to excellence in engineering and innovation.

Position location

Job location

Middle-East/North Africa, United Arab Emirates

City

Dubai

Candidate criteria

Minimum level of education required

4-Bachelor of Arts / Bachelor of Science

Minimum level of experience required

Less than 2 years
