### Engineer II | Petrofac Abu Dhabi

We are a leading international service provider to the energy industry, with a diverse client portfolio including many of the world's leading energy companies.

We design, build, manage and maintain infrastructure for our clients. We recruit, reward, and develop our people based on merit regardless of race, nationality, religion, gender, age, sexual orientation, marital status or disability. We value our people and treat everyone who works for or with Petrofac fairly and without discrimination.

### Engineer II | Petrofac Abu Dhabi | Apply Now

support in the preparation of Inquiry Requisitions to subcontractors for Soil and Topographic investigation analysis reports

Able to identify factors such as soil strength, underground water tables and other civil works which may influence design of structure foundations.

Support the Go/NoGo process for mobilisation of Civil Subcontractor, site readiness.

Reviews subcontractor deliverables (procedures / method statements) for earth works, concrete works, steel works, road works and other related civil activities.

Participate in the follow-up of subcontractor survey works, review test results, identify deviations from original work scope requirements and inform immediate supervisor.

Review topographic layouts, earthworks/excavation drawings, boreholes locations, fencing, paved roads and drainage, underground piping and foundations, architectural and conceptual building drawings, control room layouts, substation layouts, machinery shelters, service platforms, pipe racks, pump foundations, vessel and vessel platform

foundations, columns and other civil/structural drawings.

Review sizing calculations, concrete design analysis, building design analysis, design of equipment foundation analysis, design analysis of steel structures, dynamic analysis, finite element and numerical analysis, roads and drainage, HVAC requirements, electrical system requirements, fire and detection systems, instrument systems, telecom systems, quantity estimations, and other technical requirements and specifications.

Review technical inquiry requests (Inquiry Requisitions) to vendors, participate in the technical evaluation of vendor bid offers. Partake in Technical Bid Evaluations (TBE), review vendor drawings and documents. Review design calculations and ensure vendor equipment specifications meet with client equipment specifications and are within budgeted costs.

The above is an outline of key duties and accountabilities, rather than an exclusive or exhaustive list of responsibilities. The post holder is expected to undertake any tasks which may reasonably be expected within the scope of the position.

2+ Civil & Structural Engineering experience in direct hire construction with an international oil & gas EPC company and with subcontractors

Degree in Civil Engineering or equivalent from an accredited college or university.

Preference will be given to candidates who meet the following criteria:

Experience working in the Commonwealth of Independent States (CIS/FSU), Middle East, and/or North Africa

Prior experience working with a diverse international workforce

Good communications skills

Familiar with International codes and standards (BS, ASTM, ACI etc.), concrete/asphalt mix designs, laboratory testing of concrete, asphalt, earth works and grouting

Have working knowledge and interpretation skills of building sectional/reinforcement and structural steel drawings

Has knowledge and experience to solve civil, building, structural issues onsite and provide guidance to subcontractors.

Don't miss out on this exciting opportunity – apply now at [dubaiofferz.com](http://dubaiofferz.com)
