Engineering Jobs In Abu Dhabi | Ikna1 Semikan

About the job

Work in Sweden Can you imagine working and gaining experience in one of the best countries to live, where ideas and technological developments flow? This is the opportunity to develop your talent on an internship in Sweden. You can start working remotely for the first three months, but then we expect you to move to work and live in Sweden.

About The Role If you are passionate and creative, recently graduated, or are in the last semester of engineering, you can do an internship in Sweden! As an intern, you will work with the industry's best engineers. Your design, code, and raw intelligence will help solve complex technical challenges in embedded systems, power electronics, AI, automation, software development, testing and verification, to name a few, within the MedTech, Mechanics, Automotive, Aerospace and IT and Digital Solutions industries. Join and design your future!

Requirements Allow yourself to exceed your limits and bring with you:

Currently enrolled in a Bachelor's or recently completed from an accredited engineering University programme related to MedTech, Mechanics, Automotive, Aerospace and IT and Digital Solutions industries.

Desirable knowledge of languages such as Java, C/C++ or Python.

Desirable knowledge of fundamentals like product-oriented design, algorithm design, data structures, and complexity analysis.

Ability to effectively structure technical challenges and solutions.

Outstanding creativity, solid team-based culture, and good communication skills.

Willing to learn from others, self-motivated to perform simple or complex tasks.

Proficient in written and verbal communication in English.

Be able to work with the well-known fika brakes.

About The Company

We are offering more than just an internship. We help you to build a new exciting experience in one of the world's most innovative and technologically developed countries. Our client has more than 30 years of experience, dedicated to developing digital products and solutions for startups and global groups within the MedTech, Automotive, Aerospace and IT and Digital Solutions industries, with the desire to make our world a better and more sustainable place for all. Do you feel ready to become part of an experienced and innovative company with reliable performance in the real world? Do you want to make a difference for real and challenge yourself? This is your opportunity to gain professional experience in a constantly innovating company and country and do your part to improve the world.
