Company: Vinirma Consulting Private Limited

Location: United Arab Emirates

Category: healthcare-practitioners-and-technical

Nair Systems, is a DIFC based, boutique leading edge technology consulting and professional services firm focusing on Digital Banking, Artificial Intelligence, Big Data & Data Analytics, Cyber Security, Blockchain and Cryptocurrency and Robotic Process Automation.

Nair Systems is currently looking for Enterprise Architect for our UAE operations with the following

Qualifications:

- Experience: 10+ Years of Experience in relevant domain
- Domain knowledge: extensive knowledge and experience on the banking domain.
- Broad Technical Knowledge: Deep understanding of both IT infrastructure (networks, data centers, cloud services) and application development (software design, development frameworks).
- Integrated Architectural Experience: Proven experience in designing and managing integrated systems that include both IT infrastructure and applications.
- Systems Thinking: Ability to think systemically and understand the complex interrelationships between infrastructure, applications, and business processes.
- Strategic Vision: Ability to develop and articulate a clear vision of the integrated enterprise architecture that supports the organization's objectives.

Key Responsibilities:

- **Integrated Architecture Design:** Develop and maintain a comprehensive understanding of both IT infrastructure and application architecture. This includes designing systems that integrate software applications with hardware infrastructure.
- **Strategic Alignment:** Ensure that both the IT infrastructure and application architecture strategies align with the overall business goals and objectives of the organization.
- **Holistic Solution Development:** Create and implement holistic enterprise solutions that encompass both application and infrastructure components. This involves understanding the interdependencies and ensuring seamless integration.
- **Technology Evaluation and Selection:** Assess and recommend appropriate technologies for both infrastructure and applications, considering current and future organizational needs.
- **Cross-Domain Collaboration:** Work closely with both infrastructure and application development teams to ensure cohesive and efficient system design and implementation.
- **Governance and Standards:** Develop governance frameworks that encompass both infrastructure and application domains, establishing standards for design, procurement, and implementation.
- **Risk Management and Compliance:** Oversee the assessment and management of risks related to IT infrastructure and application architecture, ensuring compliance with relevant laws, regulations, and best practices.
- **Change Management:** Lead and manage change initiatives related to the enterprise architecture, ensuring minimal disruption and alignment with strategic objectives.
- **Capacity Planning and Scalability:** Plan for future growth in both infrastructure and application areas, ensuring scalability and flexibility of the architecture.
- **Performance Monitoring:** Continually monitor the performance of IT infrastructure and applications, identifying areas for improvement.

Terms & conditions.

Joining time frame: 2 weeks (maximum 1 month)

The selected candidates shall join Nair Systems - UAE and shall be deputed to one of the leading Banks in UAE.

Should you be interested in this opportunity, please send your latest resume in MS Word

format at the earliest at [HIDDEN TEXT]
