

Explosives (Secondary or Primary) Specialist - (EMSS-EM)

[Apply Now](#)

Company: HALCON

Location: Abu Dhabi

Category: healthcare-practitioners-and-technical

About HALCON

HALCON is a regional and international leader that offers next-generation Weapons Systems and Robotics Expertise to meet the challenges of a rapidly changing world. HALCON has developed in-house expertise across the entire value chain for gravity-release bomb guidance systems. This includes design, development, testing, manufacturing and assembly. Our end-to-end capabilities ensure exceptional quality and competitive pricing. As well, we are faster and more flexible in meeting customer requirements.

Job Summary:

The Explosives specialist will be focusing on the R&D projects within the Munitions department that are oriented around energetic materials generally. Mainly preparing formulations, simulating them, prototyping, testing and qualifying all based on accepted international standards. Moreover, providing solutions to end users in other munitions teams and customers involving explosives risks and improvement. Finally, supervise and guide engineers within the team to become future specialists.

Key Accountabilities

Scope

Driven to perform both research and development on next-generation Explosives technologies as per end user requirement to fulfil project deliverables

Execute

Tackle Explosives risks and problems raised by Munitions team members throughout their development, design, and testing processes by providing solutions and implementing them

Supervise

Improving available technologies within the Explosives team by upgrading and optimizing current available engineering and chemical technologies and planning of futuristic technologies adoption.

Supervise

Lead Explosives based research and development projects by actively delivering newly in-house designed components

Supervise

Review and authorize Explosives drawings, specifications, accepting/rejecting testing and evaluation results, accepting/rejecting prototypes, HSE procedures, delivery plans, and QC requirement.

Execute

Study UAE market and cluster's requirement to plan R&D projects accordingly.
