## FABRICATOR/SCALE MODEL MAKER/ARCHITECTURAL MODEL MAKER

### Company Overview:

Arc 3D Printing Solutions LLC is a dynamic and innovative company specializing in architectural model making and 3D printing services. We work with architects, designers, and professionals across various industries to bring their concepts to life through precise and visually stunning models. As we continue to expand our operations, we are seeking a skilled Fabricator to join our team.

### Position Overview:

We are looking for a talented Fabricator with expertise in 3D printing and architectural model making to contribute to our fast-paced and creative work environment. The ideal candidate will have a passion for precision, attention to detail, and a strong understanding of materials and processes relevant to architectural model making and additive manufacturing.

### Key Responsibilities:

#### Material Selection and Preparation:

Evaluate and select appropriate materials for 3D printing and model making based on project requirements.

Prepare materials for fabrication, including mixing, casting, and assembling components.

#### Model Assembly and Finishing:

Interpret architectural drawings, renderings, and CAD files to produce accurate and visually

compelling models that meet client specifications.

Assemble architectural models with precision, ensuring accuracy in accordance with design specifications.

Implement finishing techniques such as sanding, painting, and detailing to achieve a polished final product.

Implement best practices for post-processing, finishing, and assembly of architectural models, ensuring a flawless end product.

### **Collaboration with Design Teams:**

Work closely with architects, designers, and project managers to understand design intent and requirements.

Provide insights and recommendations on fabrication techniques and material selection to enhance the overall quality of models.

### **Quality Control:**

Conduct thorough quality checks on completed models to ensure accuracy, consistency, and adherence to project specifications.

Troubleshoot and address any issues or defects in the fabrication process.

### **Technological Advancements:**

Stay informed about the latest advancements in 3D printing and model-making technologies.

Recommend and implement improvements in fabrication processes to enhance efficiency and quality.

### **Qualifications:**

Bachelor's degree or equivalent experience in architecture, industrial design, engineering, or related field.

Proficiency in CAD software and digital modeling tools.

Strong understanding of materials commonly used in architectural model making, such as plastics, resins, and composites.

Excellent attention to detail and problem-solving skills.

Effective communication and collaboration abilities.

Ability to work efficiently in a fast-paced, deadline-driven environment.

Prior experience in a fabrication or manufacturing role is preferred.

Join our team and be part of a creative and dynamic environment where your skills and expertise will contribute to the realization of innovative architectural projects. If you are passionate about 3D printing, model making, and pushing the boundaries of design, we want to hear from you!

To apply, please submit your resume and portfolio showcasing relevant projects and experiences.

***( salary and packages will be discussed after reviewing your professional record )***

Job Type: Full-time

Salary: AED3,000.00 - AED5,000.00 per month
