Company: Delta Management Services

Location: United Arab Emirates

Category: healthcare-practitioners-and-technical

As a Facade Design Manager, you will play a crucial role in overseeing and managing the designing aspects of facade projects within the construction and architectural industry.

Your primary responsibility will be to ensure the successful integration and execution of facade systems across different construction projects. You will work closely with architects, engineers, contractors, and suppliers to coordinate, plan, and implement facade solutions that meet quality, safety, and aesthetic standards.

Responsibilities:

- **Project Planning and Coordination:** Collaborate with architects and design teams to understand project requirements and develop facade strategies that align with the overall architectural vision.

Oversee the development of technical drawings and specifications for facade systems.

Work with project managers to establish project timelines, milestones, and deliverables related to facades.

Coordinate with various stakeholders to ensure smooth communication and collaboration throughout the project lifecycle.

- **Technical Expertise:** Possess in-depth knowledge of various facade materials, systems, and technologies, including but not limited to glass, aluminum, steel, stone, and composites.

Stay updated with the latest advancements in facade technology and industry best practices.

Analyze and assess the feasibility and sustainability of proposed facade solutions.

- **Quality Assurance and Compliance:** Implement quality control measures to ensure that facade

installations meet regulatory standards and project specifications.

Conduct regular inspections of design to identify and address any defects or deviations during the installation process.

Ensure compliance with safety regulations and industry standards.

- **Team Leadership and Collaboration:**Lead a team of facade specialists, drafters, and technicians, providing guidance and support throughout projects.

Foster a collaborative work environment, encouraging open communication and knowledge sharing.

- **Problem Solving and Troubleshooting:**Identify and address technical challenges related to facade systems promptly.

Propose innovative solutions to improve the performance and efficiency of facade installations.

Desired Candidate Profile

- Bachelor's or Master's degree in Architecture, Civil Engineering, or a related field.

- Proven experience in facade design, coordination, or project management within the construction industry.

- Extensive knowledge of facade materials, construction techniques, and systems.

- Strong leadership and communication skills to effectively manage teams and liaise with various stakeholders.

- Excellent organizational and time-management abilities to handle multiple projects simultaneously.

- Proficiency in CAD software and other relevant technical tools.

- Problem-solving skills and the ability to think critically under pressure
