

Facade Engineer

[Apply Now](#)

Company: Inhabit

Location: dubai

Category: other-general

Description:

Our office in Dubai is undertaking new projects with some of Dubai's most prestigious and well-respected architecture firms and clients. We are seeking a Façade Engineer to join our close-knit team, reporting to our Regional Manager – UAE. This role will suit a highly organised, proactive and enthusiastic individual with knowledge and experience in the following fields: glass, balustrades, curtain wall systems, window wall systems, glazing, fixings, aluminium, precast concrete, architectural steel, lightweight structures and stone cladding.

Job Responsibilities: Design engineering for façade and steel and build-ability consultancy, including material knowledge and installation techniques

Prepare design and engineering reports for design and construction stages.

Provide detailed engineering calculations and structural façade analysis, advice and reporting

Project management and administration

Review contractor shop drawings

Carry out site visits and inspections

Liaise with builders, architects and engineers to ensure projects meet the design brief

Develop strong relationships with existing clients to ensure repeat business as well as pursue new business opportunities

Job Requirements: A Bachelor's Degree in Engineering (Civil/Structures)

Ideally 5 – 8 years' experience in Façade Engineering within a façade consultancy or façade contractor. Experience working in the Gulf Cooperation Council (GCC) ideal

Sound knowledge in façade systems and design and relevant codes and standards

Demonstrated portfolio of medium to large scale projects

Hold strong interpersonal skills and can demonstrate technical leadership and mentoring

Proficient in relevant façade & structural finite element software, e.g. Strand 7, STAAD

Programming experience with Rhinoscript, Grasshopper, Python etc. would be an advantage

Excellent communication, problem solving and organisational skills#J-18808-Ljbffr
