Company: Rentokil Pest Control South Africa

Location: dubai

Category: other-general

Company Description Rentokil Boecker is the premier and largest public health company in the region, providing world-class pest control, germ control, food safety, hygiene & scenting, and landscaping services across various countries in the Middle East and Africa. We have a highly trained team of specialists in the fields of environmental health, entomology, marketing, and business development. Our commitment to exceptional human capital, latest technologies, and resources contributes to our continued expansion globally.

Role Description This is a full-time on-site role for a Field Biologist located in Dubai. The primary responsibilities include -- Monitor and constantly verify the quality of service offered to the Company's Clients.- Carry out inspections and quality control visits at Clients' premises in order to evaluate and achieve their satisfaction.- Conduct inspection visits at Clients' premises to strengthen the relationship with the Client and actively participate in resolving existing infestation issues. -The Field Biologist must plan monthly inspection visits by completing the MOD. Quality Checklist in case of non-compliance detected.- Visit Top Accounts for quality control inspections, creating reports/graphs on the status of work and infestations identified, providing suggestions to resolve issues.. Other tasks include providing reports, conducting surveys, and presenting research findings to management.

Qualifications Field Skills:
experience in Field job
Research: experience in designing and conducting research studies and analyzing data
Excellent written and verbal communication skills
Ability to work independently and as part of a team
Bachelor's degree in Biology, Agricultural Engineer, environmental health, entomology or any related field
Experience working in the UAE region is a must
