1- Field Engineer I – Directional Drilling

Job: Full Time

Location: Abu Dhabi, UAE

Description:

We are looking for the right people — people who want to innovate, achieve, grow and lead. We attract and retain the best talent by investing in our employees and empowering them to develop themselves and their careers. Experience the challenges, rewards and opportunity of working for one of the world's largest providers of products and services to the global energy industry.

Under general supervision, provides on-site supervision of the Directional Drilling (DD) process including projection of well path to predetermined target coordinates. Serves in a subordinate role on any job. Understands principles of Bottom Hole assembly (BHA) selection and aspects of DD performance and ensures that BHA's are assembled as planned including correct make-up torque, doping and handling.

Proficient in the use of DD computer software and able to assist in provision of advice and analysis to the client representative at the well site. This shall include all survey calculations and well path projections. Proficient in updating well profile plots and providing client representative with accurate directional survey data. Aware of client's requirements with regards to surveying procedures. Assists in the completion of a daily DD report, BHA performance report for each BHA run, completion of all service tickets and relevant paperwork (well data spreadsheet, lesson learned/best practice, End of Job Customer Survey (EJCS) and Key Performance Indicator (KPI) forms).
